

Hospitality & Leisure

TimeSimplicity provides the tools you need to quickly create and update schedules with its “Copy & Paste” and “Drag & Drop” features; this is no longer a time-consuming process. We realize staff changes are inevitable but with TimeSimplicity’s Trade Board it doesn’t need to take hours to coordinate your staff’s availability or to fill open shifts. TimeWorksPlus’ companion TimeWorks Mobile allows your employees to punch in or out from where ever they are scheduled and to ensure they are onsite you can view the actual location at the time of their punch with TimeWorks Mobile’s PinPoint GPS locations feature.
