

Introducing SwipeClock's Workforce Management Clock

Reducing labor costs one punch at a time

- ✓ **PunchLogic™** prevents punch errors.
 - Eliminates duplicate punches and drastically reduces admin edits
 - Improves accuracy of audit-able timekeeping data for compliance
- ✓ **Break tracking** gives employees dedicated break buttons
 - Removes employee confusion when punching at the clock
 - Allows breaks to be paid based upon hours worked
- ✓ **New Punch Types** enable quick identification of work and rest periods
 - Increase usability with dedicated break, meal and transfer buttons
 - Improve tracking of departments, job codes, etc.
- ✓ **Configurable Settings** fit employer's needs
 - Create a customized clock experience

Workforce Management Clock—improving the way employers track employee hours while reducing labor costs, one punch at a time. Available via modern web browsers on most devices.
